Technical Information for Images In Motion Puppet Shows

Length of show: Approx. 30 minutes with a 5-15 minute Post Show “Demo”, if desired, covering...

- the types of puppets built for the show, including hand, rod, shadow and mouth (“Muppet”) puppets and how they are brought to life
- how to make simple hand, rod, shadow and mouth puppets
- how some of the show effects were created
- (for schools) samples of hand, rod, shadow and mouth puppets from around the world

Audience size: Up to 300.

The puppet stage is an elegant blue velvet box.

- Minimum performing space for puppet stage: 12 feet wide by 6 feet deep by 8 feet high, with ideally a 3 foot area before audience seating.
- Show comes with self contained lighting and sound system
- Power: 1 electrical outlet
- Setup - approx 1 hour before the show time
- Shows have a shadow puppet section. The room doesn’t have to be totally dark, but the shadows are most effective if the room can be dimmed at least 50 percent.

Publicity: The booking party will feature the name of the puppet company, Images In Motion, in all publicity about the show. Images in Motion can provide photos, fill-in posters and publicity material.

Phone number for emergencies or if on the road - Cell: (707) 738-5906
